# How Our Two-Fund Model Works

Awaken Village is a regenerative publishing ecosystem that helps creators bring powerful, transformational messages into the world, through books, platforms, and public storytelling. But we don't just publish books.

We've built a royalty-based financial system that lets authors, partners, and patrons all benefit from the messages we help launch, while continually funding future voices.

Each book moves through five stages (from development to marketing & promotion), with each stage costing, on average, \$5,000 to complete and each stage giving the patron one Socially-Engaged Earnings Distribution System (S.E.E.D.S.). For a bit more information, feel free to [watch this short video](#).

## Fund 1: The Awaken Village Fund (Shared Soil)

- Your **\$5,000 contribution = 1 Patronage S.E.E.D.S.**
- Contributions flow into Fund 1 to cover:
  - Book production (especially for authors who can't fully self-fund)
  - Payments to Village partners (editors, designers, marketers, etc.)
  - Shared ecosystem stability and resilience
- Fund 1 is the **soil of the Village**: contributions nourish new seeds and future projects.

## Fund 2: The Royalty Fund (Shared Canopy)

- Every book published contributes **50% of its royalties** into Fund 2.
- When you contribute to Fund 1, you also receive **F.R.U.I.T. in Fund 2**.
- Fund 2 F.R.U.I.T. entitles you to a portion of pooled royalties as they circulate through the ecosystem.

**So: Money in → Fund 1. Royalties out → Fund 2.**

# Why Contribute?

## Circulating Value

Your money doesn't vanish, it helps create a book, then flows back as royalties through Fund 2.

## Regenerative Logic

Your participation fuels new work while earning ongoing royalty distributions.

## Mission-Driven Impact

You're backing messages that heal, challenge, empower, and awaken, books that might never exist without this support.
